

Veeva CRM Maintenance Release Notes -- 181.12.0

Account Mgmt

iPad: Some accounts did not display in Account Views that filtered for Territory Specific Fields or Address fields. This has been fixed. (CRM-146139, CRM-146909, CRM-146676)

Align

iPad: When a user selected the Accounts or Geographies button on the Future Territory Alignments page, an error occurred. This has been fixed. (CRM-147158)

Approved Email

iPad: When some words or names entered in an Approved Email were converted from rich text, the converted text matched a restricted word, and an error occurred. This has been fixed. (CRM-145339)

Online, iPad, Windows 8 and 10, MC: When a user entered pipe characters in Approved Email free text fields, the email did not display correctly. This has been fixed. (CRM-146429, CRM-146498)

Call Reporting

iPad: Order and Inventory Monitoring options displayed in the More Actions list for Unique Activity and Child Account Calls. This has been fixed. (CRM-143540)

Call Scheduling

Online: Copying an entire week of Call Cycles to My Schedule took longer than expected. This has been fixed. (CRM-140113)

CLM

MC: Customers experienced slow performance or pages that did not load when accessing the CRM Publishing tab in the Vault application. This has been fixed. (CRM-147131, CRM-147321)

Engage Meeting

MC: Approved Emails sent from an iPad remained in a Saved state with an unknown error. This has been fixed. (CRM-147870)

Infrastructure

iPad: When a user adds an attachment, a record is now added to the Event Log. (CRM-146284)

MC Cycle Plans

Online: Large MCCC queries timed out before completing. This has been fixed. (CRM-146399)

RN - 181.12.0

Medical Events

iPad: Values did not display in the Address and Location fields in Account Lookups when Configurable Lookups were enabled. This has been fixed. (CRM-146000)

Windows 8 and 10: The same account could be added to a Medical Event as an attendee multiple times. This has been fixed. (CRM-147314)

Sync

iPad: Errors occurred during both incremental syncs and full database refreshes for users with a large number of Sent Email records. This has been fixed. (CRM-144923)

Territory Mgmt

Online: The Mass Assign Territory utility did not complete when run against large territories. This has been fixed. (CRM-138440)

Note

Maintenance items in the Veeva application are typically corrections to existing functionality. All new features and enhancements to existing features are normally available in major releases.
