

## **Veeva CRM Maintenance Release Notes – 191.9.0**

### **Account Management**

iPad: A validation error occurred when no changes were made. This has been fixed. (CRM-171900, CRM-172141)

Windows 10: Attachment descriptions were limited to 80 characters. This has been fixed. (CRM-171925)

Windows 10: After a user canceled a view creation in My Accounts, an error occurred. This has been fixed. (CRM-172145)

### **Approved Email**

Online: The Send Now button on the Approved Email Preview screen was unresponsive. This has been fixed. (CRM-171677)

### **Call Scheduling**

Windows 8 and 10: The state abbreviation is not translated on the My Schedule screen. This has been fixed. (CRM-170845)

Windows 10: Modifying the month on the My Schedule screen caused an error. This has been fixed. (CRM-171962)

### **Consent Capture**

iPad: The Common label displayed on consent types containing a content type not linked to a product. This has been fixed. (CRM-172077)

iPad: Consent captured for a sub-channel was treated as a global consent for the channel. This has been fixed. (CRM-172078)

### **Contracts**

iPad: Non-image attachments did not display on the Signature screen. This has been fixed. (CRM-171816)

### **Events Management**

iPad: A validation error on the Attendee Reconciliation screen contained a formatting error. (CRM-171802)

### **Home Page**

Windows 10: After signing into CRM, a sandbox warning message displays until the user selects OK. This has been fixed. (CRM-171709)

### **HTML Reports**

iPhone: Selecting a smart linking item did not open the associated account. This has been fixed. (CRM-170010, CRM-171559)

### **Surveys**

Online: When a user attempted to save or submit an answer string exceeding the character limit, the field was outlined in red. After resolving the length, the field remained outlined. This has been fixed. (CRM-170208)

### **Sync**

iPad: An error occurred when a user attempted to sync. This has been fixed. (CRM-171896)

### **Other**

Online: The field label for the Union field in the Account object was translated as Labor Union in several languages. This has been fixed. (CRM-171878)

### **Note**

Maintenance items in the Veeva application are typically corrections to existing functionality. All new features and enhancements to existing features are normally available in major releases.
